

# MUSTAFA BERKAN BALA

## Frontend Developer

### ABOUT ME

In 2015, I started to study at Selcuk University, Department of Business Administration. After graduating from university, I worked in my field for a few years. Then I decided to switch to the software field, which I have been interested in for a long time. I am currently developing web programming with Javascript and I follow Javascript technologies closely.

I plan to continue my career as a Front End Developer. I do my job willingly and carefully. I'm a competent and organized person who can quickly adapt to new technologies and solutions and communicate properly with teammates.
